### Directions:

- Remove the steaks from the refrigerator for at least 30 minutes and up to 1 hour prior to cooking. Sprinkle all sides with salt.

## 10.10 Parisian Gnocchi

### Ingredients (For dough):

- 1 7/8 cup of flour
- 1 1/2 cup of water
- 6oz of unsalted butter
- 3/4 tsp kosher salt
- 1 tablespoon dijon mustard
- 3/4 cup of grated parmesan cheese
- 4 eggs
- 2 tbl spoon parsley leaves

### Ingredients (For stir frying the gnocci):

- butter
- olive oil
- 2 table spoons chives
- 6 pureed garlic cloves

**Directions:**

- Bring water, butter, and salt to a boil in a medium saucepan over high heat. Add flour all at once and stir with a wooden spoon until a smooth dough forms. Reduce heat to medium-low and continue to stir, beating dough forcefully and rapidly to prevent it from sticking to the pot. Continue cooking until dough pulls away from sides of pot leaving a thin layer and steams slightly.
- Transfer hot dough to the bowl of a stand mixer fitted with a paddle attachment. Add mustard and cheese and beat on medium-low speed. Add eggs one at a time, allowing dough to fully incorporate egg before adding the next one. When final egg has been added, add herbs and beat to combine. Transfer mixture to a gallon-sized zipper-lock bag or a pastry bag fitted with a 1/2-inch tip.
- Let mixture rest 15 to 25 minutes at room temperature. Meanwhile, bring a large pot of salted water to a simmer and have a rimmed baking sheet. If using a zipper-lock bag, cut off a 1/2-inch opening in one corner. Holding the bag over the boiling water, squeeze the mixture out of the bag, cutting it off with a paring knife into 1-inch lengths and letting them fall directly into the simmering water. Continue cutting off as many as you can in one minute, then stop.
- When all gnocchi have floated to the top, continue cooking until gnocchi are fully cooked to the center, about 3 minutes longer.
- In a non-stick pan, add a bit of butter and olive oil, add gnocchi and garlic until the gnocchi is golden brown. Do in batches.

**Directions:**

- 1/4 cup soy sauce low sodium
- 3 tbsp maple syrup
- 2 tbsp sweet chili sauce
- 2 tbsp lime juice freshly squeezed
- 1 tsp fresh ginger minced
- 3 cloves garlic minced
- salt and pepper to taste
- 1-2 lb salmon fillet no skin
- 1 tbsp sesame seeds
- 2 green onions chopped

**Directions:**

- Preheat your oven to 375 F degrees. Place 2 foil sheets on a baking sheet. I used 2 foil sheets because I want to make sure theres enough foil to wrap around the salmon.
- In a small bowl whisk together the soy sauce, maple syrup, sweet chili sauce, lime juice, fresh ginger, garlic, salt and pepper. The salt can probably be omitted since the soy sauce should have plenty of sodium.
- Place the salmon fillet over the foil then pour about half the marinade over and brush if necessary to cover the entire surface of the fish. Turn the fish over and pour the rest of the marinade. Also brush the marinade making sure that the entire fish is brushed with marinade.
- Fold the edges of the aluminum foil over the salmon so that it is fully wrapped. Bake for about 20 to 25 minutes, depending on the size of your salmon. My salmon was quite a big piece, so I baked it for 25 minutes. You may also turn the broiler on and broil for about 2 to 3 minutes at the end if preferred.
- Open the foil and garnish with sesame seeds and chopped green onions.

- Season the chicken breasts generously with salt and pepper.
- Heat 2 tbsp of the olive oil in a large skillet or a saucepan over medium-high heat. Add the butter and stir, this will give the sauce a nice glossy color.
- Add the chicken breasts back to the pan and cook for another 5 minutes.
